

Camp Invention® Is Returning to Merrimack!

In partnership with the National Inventors Hall of Fame®

The Merrimack School District is excited to once again offer the nationally acclaimed **Camp Invention®** program for children entering **grades K–6**. This inspiring, weeklong summer experience invites campers to explore science, technology, engineering and more through open-ended, hands-on activities. Each day, children collaborate with friends, think creatively and develop inventive solutions to real-world challenges.

Camp begins **July 6, 2026**, with **Catherine Goodman** and **Kimberly Morgan** serving as Co-Directors. The **all-new 2026 program** will spark the imagination of both new and returning campers, offering an adventure filled with innovation, creativity and unforgettable discoveries!

*Registrants prior to 12/14/26 will receive a Camp Invention Winter Hat

New Modules for Summer 2026

Activate Innovative Superpowers With *The Infringers*™

Campers team up with real-world inventors to unlock their invention superpowers and solve challenges in their community and beyond. They miniaturize top-secret innovations, safeguard their designs using cryptography, and protect their intellectual property from the Infringers—time-traveling duplicators trying to steal ideas! Campers race through time to ensure their inventions are patented and protected.

Investigate Curious Clues With *Fur-ensics*™

Young detectives sharpen their sleuthing skills as they investigate a series of playful pranks with Cap E. Bara and a team of robotic capybaras. Inspired by their capybara's inner mechanics, campers create investigative gadgets, collect fur samples, follow mysterious tracks and analyze evidence to uncover a surprising twist!

Splash Into Entrepreneurship With *Make Waves*™

Children build confidence as they dive into the world of entrepreneurship! Inspired by surfboard innovations, campers explore buoyancy, tackle salty challenges and develop ideas for unique products. They sketch, design and build prototypes before creating a billboard boat to “make waves” in the marketplace with ocean advertising.

Build a DIY Space Rocket With *Space Morphers*™

Campers stretch their imagination as they construct a DIY rocket and launch a mission to transform a distant planet for future habitation. After a high-energy Rover Race to gather data, they design inventions to navigate harsh planetary conditions. In the Space Lab, they make discoveries, hatch a mysterious animal egg and encounter a dazzling crystal surprise.

Secure Your Spot Today!

Grades: Rising K–6 (campers grouped by grade)

Location: Merrimack School District (TBD), Merrimack, NH 03054

Dates & Time: July 6–10, 2026 | 8:30 AM–3:00 PM

Cost: \$290 (before discounts)

Payment Plans: Available through May 7, 2026

Sibling Discounts: Visit [INVENT.ORG/CISAVE](https://www.invent.org/cisave)
